

# A CAD RESOURCE WHEN YOU NEED IT AT A COST TO SUIT YOUR BUDGET

Do you want to manage your CAD operations more effectively ..... while also improving efficiency and cutting costs?

Then why not talk to CAD Services?

**Whether your'e looking for help with a single drawing or project, occasional assistance during busy periods or a complete outsourced CAD facility, CAD SERVICES is committed to providing the highest level of service to you, ensuring you maintain a high quality of service to your clients.**

**Just some of the benefits you can enjoy by working with a flexible CAD partner:**

- Smoothing out the peaks and troughs in your CAD department.
- Consistent style, accuracy and quality of your CAD drawings.
- A flexible approach that fits your business processes.
- Services as and when you need them, every day or just now and then.
- Significant time and cost savings.
- You only pay for what you use.

**If that sounds interesting, read on....**

## FACING UP TO THE CHALLENGES

Managing an in-house CAD department brings a number of challenges, not least matching the available capacity to the workload. During busy periods you are rushed off your feet, to the possible detriment of the service you provide to customers. During quieter periods, there is a danger that CAD operators are not fully occupied and earning their keep.

When you partner with CAD SERVICES the situation is much simpler:

Simply prepare your design mark-ups in the same way you would for an in-house CAD resource.....and send them to us.

And when you've decreased your existing resources there's no need to re-employ. We can be as flexible as your requirements need to be.

## WHAT DO YOUR CAD DRAWINGS SAY ABOUT YOUR COMPANY?

Accurate CAD drawings are essential to making a project run smoothly and efficiently. Furthermore, the quality of those drawings says a lot about your company to your client and other members of the project team you share them with.

CAD SERVICES leads the field in outsourced CAD support, and has vast experience of converting a wide range of mark up and source files, of variable quality and style, to produce a consistent end product - time and time again.

- Consistent style
- Consistent accuracy
- Consistent quality

What's more, we make sure that our highly experienced CAD operators work to the style and quality you require. As a result, you receive drawings that are ready to use without modifications.

## SO WHAT ARE YOUR OPTIONS?

- Spending a fortune hiring and firing staff as and when you need to.
- Risking variable quality by using agency staff during peak workflow.
- Teaming up with CAD SERVICES to provide tailored solutions, to the style and quality you require, available whenever you need them.

- CAD DRAFTING
- DESIGN MARK-UP TO CAD CONVERSION
- BUILDING SERVICES CO-ORDINATION
- AS INSTALLED AND RECORD DRAWINGS
- RECORD DRAWING VERIFICATION
- BUILDING SERVICES SURVEYING
- MEASURED BUILDING SURVEYS
- HOSTED DRAWING SERVICES

**Steve Revell**  
Managing Director. Maleon.  
Building Services Consultants

"Adopting CAD SERVICES has released our resources enabling us to concentrate on delivering our core activity, adding value to our services and customers. Where previously we had five CAD operators and a £130k IT investment. We now have five design engineers satisfying clients. And with CADlink, accessing a drawing is as simple as loading a Word document. The future possibilities are endless, it is very exciting."

**A STANDARD TO WORK TO**

We will also work with you to enhance your own processes and resources, optimising work flow. PLUS, if you wish, we will issue our own published Standard Symbol libraries to your staff to assist them in creating uniform mark-ups - reducing mark-up time and achieving better results.

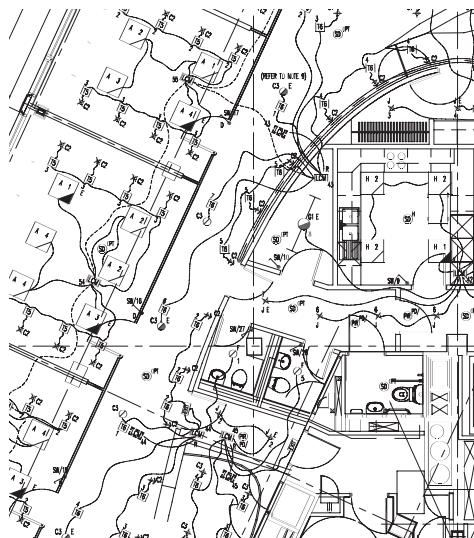

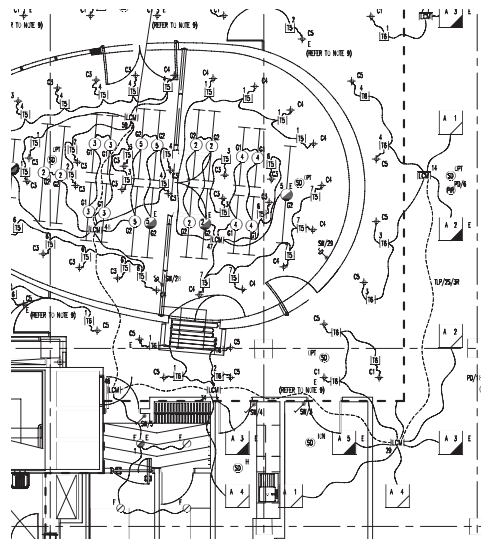

**OUR SERVICES INCLUDE**

- Conversion of designs or mark-ups to electronic CAD drawings.
- Building services co-ordination.
- 'As installed' and record drawings.
- Site surveys to CIS standards for the creation or checking of building parameters.
- 3D Drawing and visualization.
- Multi issue, multi copy, multi site, 24 hour digital printing and distribution of your drawing issue.
- Secure data centre file storage, drawing and document management and archiving.
- A comprehensive scanning and plotting service.
- Encapsulation of drawings for maintenance or O&M requirements.

**IT COULDN'T BE SIMPLER - OR MORE COST-EFFECTIVE**

Don't just take our word for it

At CAD SERVICES we are passionate about our work and rightly proud of the standards we achieve, so why not take a look at our web site at [www.cadservices.com](http://www.cadservices.com) where you will find samples of our drawings and case studies explaining how we have helped our clients release their resources to concentrate on their core business activity.

**GET IN TOUCH**

If you would like more information, why not get in touch?
